

VARIO

PORTABLE POWER

Generating set

VARIO 2500 UK

VARIO Range

Eco-designed generating set (the wheel from the trolley kit consists of a single recyclable material, the chassis is designed to provide better handling at a total weight that's 20% lighter including the trolley kit than the competition, and the addition of piping to eliminate pollution from petrol fumes...)

76% recyclability rate

Excellent price/quality ratio

Made in France

Ergonomics (weights and dimensions)

General specifications

Frequency (Hz)	50
Max power (W)	2500
Max power (VA)	2500
Noise level (Lwa)	95
Noise level dB(A) - 7m	66

Engine specifications

Brand	KOHLER
Type	RH265
Start	Launcher
Fuel	ULG 95/98
Autonomy [h]	1h55
Consumption [l/h]	1.1
Tank [l]	2.1

Uses

DIY / Gardening / Leisure

Alternator specifications

Type	Without collar or brush
Regulation	Electronic
Protection class	IP23
Insulation class	H

Plugs and panels descriptive

2 sockets 230V 13 amp – circuit breaker

Dimensions and weight

L x l x h [cm]	76.5 x 49 x 43.5
Dry weight [kgs]	34

Packaging

Packaging	Box
Dim. Unit (Cm)	60 x 40 x 43

Eco-design

Eco-design is an approach that incorporates environmental impact within product design and development and maintains environmental aspects throughout the life cycle, from raw materials to production, logistics, distribution, utilisation and end of life.
